Beautiful Sunset

This is a stunning view of a sunset over the ocean. Sunset (or sundown) is the disappearance of the Sun at the end of the Daytime, when the Sun is out of the Earth's sky. After the sunset, much of the Solar System, due to its relative to current Sun is in darkness on Earth. It is a phenomenon that happens approximately once every 24 hours, except in some cities in the polar

Majestic Mountains

Behind the majestic mountains standing tall and proud. Majestic Mountains is part of the Okanogan Range which is a sub-range of the North Cascades and is situated on land administered by the Okanogan–Wenatchee National Forest. The mountain is a long ridge paralleling Hill Creek, and has several summits, the highest of which is the North Peak (7,5 ft). The highest point is Mount Bullard. A 9 mile (5) hiking the ridge.
